Music to the eyes

This mid-century, modern chandelier is inspired by one of jazz's most renowned pianists, Dave Brubeck. Influenced by his piano playing ability while creating this piece, the designers have given it a timeless feel. The main body is made out of brass and covered with a gold-plated finish, which can be easily customised if wished as it's fully handmade by skilled Portuguese artisans.

£13,060 / €14,730 / \$16,615

CENTRE OF ATTENTION

A classic and sleek fixture that is often used as a centrepiece, the Globe collection is of Scandinavian design and available as a one, three, five or seven wire light. It can be displayed in a variety of formations, allowing you to add a personal touch and creative flair to any design scheme. The fixture is made of the finest materials, including pure copper and brass, and the black twisted drop shown here can be changed to a colour of your choice free of charge.

£699 / €769 / \$875 ► www.industville.co.uk

Moonlike glow

The new Luna Liberty collection is a tribute to Art Nouveau, inspired by the moon's mysteries. Each piece is constructed of Nebulite, a specially developed material made of resins and fibres that mimics the uneven, softly luminescent qualities of the moon's surface. It is available in either 35cm or 50cm dimensions in a choice of floor or pendant versions.

From £285 / €323 / \$362
